WRITER'S MUSE

Manvardhan studies in grade X and has written four e-books. He likes to write stories based on the importance of ecosystems. He says, "Sir Robert Kiyosaki's philosophy has been my muse not only to write but also to contribute to bring about a miniscule change in the lives of my not so privileged fellow youths of the country. 60% of my e-books revenue goes to contribute to the education of the specially abled young people."
